August 8, 2005

For more compact machines, consider the [Sumdex MT Speed Pac](#). Designed for

notebooks with up to 14.1-in. screens, it too has separate compartments to help keep you organized while providing a cocoon you need for your computer. The company's trademarked SensaTech foam absorbs and redistributes pressure from bumps and drops.

Co-eds in search of a sleeker, more sophisticated look should check out the [Nicole Modern Backpack](#), \$80, part of the Sumdex She Rules line of laptop carriers. The nylon case is water-repellent and the little blue safety light with matte nickel finish and leather trim is a lovely touch.
